Inside a LIVE ZOOM Session:

Q&A sessions that follow the presentations are live via Zoom but provided WITHIN the Whova platform for attendees. You will click on the Q&A session in the agenda to participate. Most sessions are offered as Webinars, where attendees can interact via chat, Q&A, but not audio or video. If the live session is set up as a Zoom Meeting, Whova will ask for your permission to share your video and audio through their application to Zoom for your full participation, this is typically used for more interactive sessions like workshops. There is no need to login separately to Zoom unless you are an official presenter/speaker or moderator for the live session. Please note: that you will submit questions using the Session Q&A on the right of your screen.

Developmental Papers:

The Developmental Papers hall lists all 60 posters presenting at the WAM 2021 Virtual Conference. Access this hall in advance and during WAM 2021 through Whova by clicking on “**Dev Paper**” in the left column.

You can search for the presenter’s name, any word from the title of the paper name or by paper number in the provided search box. You can reference Developmental Paper numbers using the full conference program [found here](#). Those starting with a 1 & 2 will have their author(s) available at their booths during the first two Developmental Paper sessions on Thursday, April 22nd; 3 & 4 are the final two paper sessions held on Friday, April 23rd. We have asked the authors to be available at their Developmental Paper booth to present their research during the allotted poster session time, but you can view their work on your own at anytime throughout the conference. Feel free to reach out to the poster presenters via direct message to follow up on anything of interest. We encourage you to engage with others as much as possible for the best experience.
